Wall Station and 3-button Visor Remote Control

**Added Peace of Mind for Power Outages with a Fully Self-Contained Battery Backup Unit (BBU) option.**

Optional battery backup is compliant with California regulations

### Eco-Friendly

Efficient design results in ongoing energy savings. Ultra-low standby power mode reduces electricity usage.

### Ultra-Smooth and Quiet Operation

Variable speed operation delivers ultra-smooth, quiet performance, increasing long-term reliability.

### Belt Drive or Chain Drive

Choose from our exceptionally quiet belt drive or our solid-performing chain drive.

### Safety First, Safety Always

If the obstacle-sensing beam is crossed when the door is closing, the door reverses to fully open.

### Park or Reverse Door

To permit both ventilation and access, the garage door can be stopped and parked during either upward or downward travel.

### Secure, Responsive Remote Control

Linear remote controls operate over a long range and employ high-security technology.

### Deluxe Wall Station

All controls are large, clearly marked and illuminated (door UP/DOWN control, courtesy light switch, and vacation mode).

### Automatic Courtesy Light

A built-in 100W MAX light illuminates the garage for five minutes every time the operator is used.

(Except when operating on battery backup).

### Easy Door Release

When you need to open or close the garage door manually, simply release the operator's quick-disconnect trolley.

### Assurance Through Self Checks

The operator's self-diagnostic system continually checks to see whether everything is working properly. In the unlikely event of a problem, it will pinpoint the trouble and let you know by flashing the courtesy light. You can often solve the problem on the spot with a call to your Linear dealer.

### Options

Your Linear dealer is a great source for everything from miniature key ring transmitters and multi-button visor transmitters to wireless keypads.

## Linear® Garage Door Operators, Gate Operators, Access Controls and Radio Controls

*Backed by 60 years of pioneering experience in wireless technology, garage door and gate operator manufacturing, and access control systems, the full breadth of the Linear® brand is a leading source for the garage door, gate, and access industries.*
